PLEASE NOTE: You will need to temporarily remove the side stand mount whilst installing this product so a paddock stand or similar will be required to be able to complete the job.

A) Remove the exhaust cover bolt.

B) Slide the cover towards the front of the bike to remove it from the exhaust.

C) Use a spring puller to remove the springs from the silencer.

D) Remove the silencer mounting bolt.

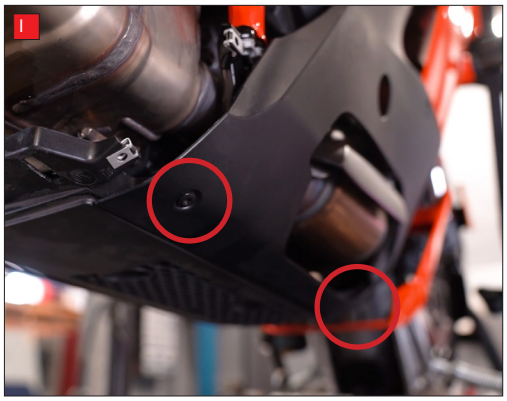

E) Carefully remove the silencer from the bike.

F) On the right side of the bike, remove the 2 bolts from the rear underbelly section.

G) On the left side of the bike, remove the 2 bolts from the rear underbelly section.

H) Remove the rear underbelly section from the bike.

Bike	KTM 990 RC R, KTM 990 Duke R, Euro 5+	**Part No.**	KT-99
Year	2025-Current	**Fit Kit**	N/A
Notes	Where not supplied use original fittings.	**dB Killer**	N/A

I) On the right side of the bike, remove the 2 bolts from the front underbelly section.

J) On the left side of the bike, remove the bolt from the front underbelly section.

K) On the right side of the bike, remove the 2 bolts for the side stand frame under the silencer.

L) If you have a helper, get them to hold the gear selector up so you can access the bolts behind it. If you don't have a helper you can cable tie it to the frame.

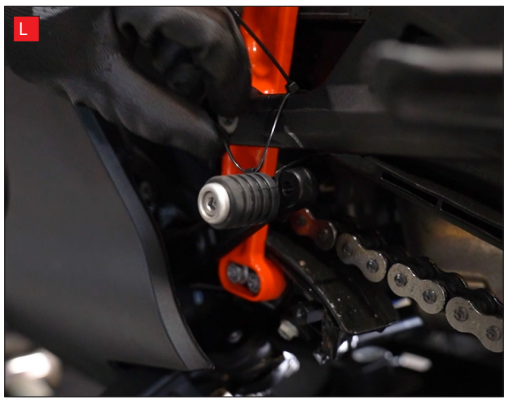

M) On the left side of the bike, remove the 2 bolts from the side stand frame.

N) Remove the 2 silencer bolts.

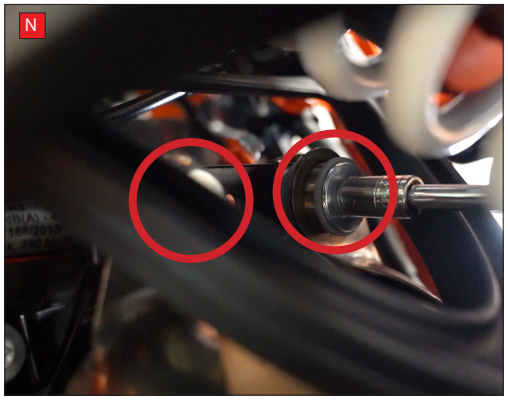

O) Remove the clamp from the silencer.

P) Remove the silencer from the bike.

Notes	Where not supplied use original fittings.	**dB Killer**	N/A

Q) Put the Scorpion centre silencer delete pipe and clamp into place and secure with the original bolt. Leave loose for now, you will fully tighten in a later step.

R) Slide the silencer on to the Scorpion centre silencer delete pipe and loosely secure in place with the original bolt. You will fully tighten in a later step.

S) Re-fit the original springs.

T) Fully tighten the clamp.

U) Fully tighten the silencer mounting bolt.

V) Re-fit the side stand frame and fully tighten.

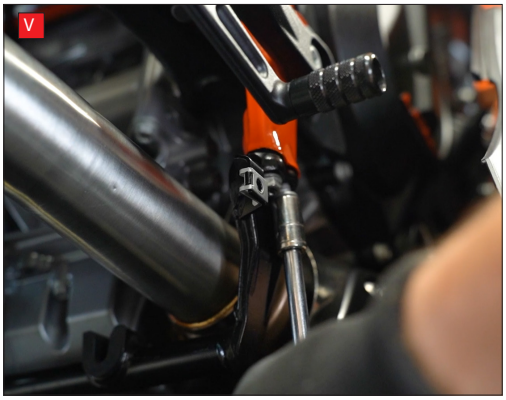

W) Re-fit the rear underbelly section and fully tighten all of the underbelly bolts.

X) Re-fit the exhaust cover and fully tighten the mounting bolt.
