Note: if more clearance is required when removing the silencer box loosen the head pipe to ease the removal. Alternatively if there's a second person present, have them sit on the bike which should create enough clearance.

A) Remove original exhaust from bike, taking care to keep all original components in a safe place.

B) Refit Scorpion exhaust as per line diagram above.

C) When fitted take bike for a short ride to ensure all functions are correct.

D) When bike & exhaust are cool enough check all nuts and bolts
