Bike	Yamaha MT-10	Part No.	PYA-126
Year	2022-Current	Fit Kits	Z039.10589
Notes	Where not supplied use original fittings	dB Killer	N/A

A) Loosen and remove the rear silencer clamp.

B) Loosen and remove the rear silencer mounting bolt.

C) Carefully remove the rear silencer from the bike.

D) Remove the gasket and collar, they're not needed when installing the Scorpion Slip-on.

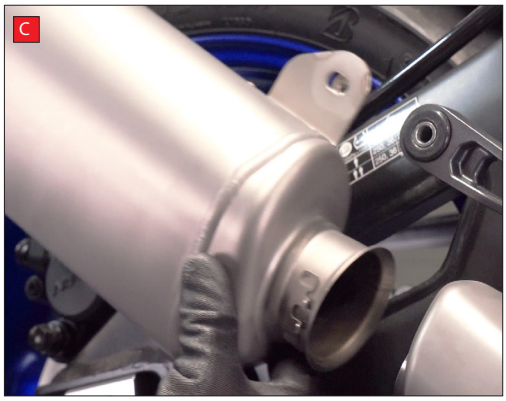

E) Slide the Scorpion silencer onto the original link pipe and align with the mounting point on the frame.

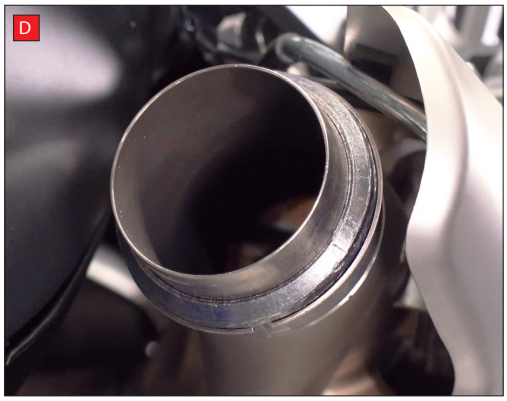

F) Insert the bolt into the bolt finisher.

G) Place the spacer between the original mount on the bike and the mounting bracket on the Scorpion silencer. Slide the bolt through the bracket, spacer and original mount.

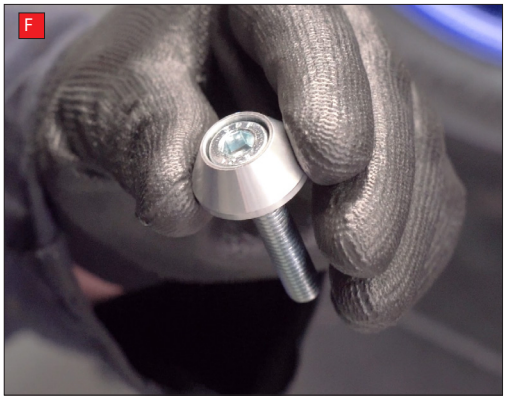

H) Secure in place with the washer and nyloc nut. Check that the silencer is aligned correctly and fully tighten the bolt.

When fitted take bike for a short ride to ensure all functions are correct. When bike & exhaust are cool enough check all nuts and bolts are still secure.
