HOMOLOGATED	NO
DATE	28/10/2026
ISSUE	01
AUTHORISED	G O'Shea

NOTE: ENSURE SCORPION SYSTEM IS CLEAR OF MOVING PARTS AND ALL ORIGINAL FUNCTIONS WORK CORRECTLY.

Bike	Honda NX500 Euro 5+	Part No.	RHA-209
Year	2024-2026	Fit Kits	Z039.10790
Notes	Where not supplied use original fittings. Remove Gasket's if fitted. Engine management light may come on.	dB Killer	SCEXDBK23 - (Type V)

A) Loosen the exhaust clamp.

B) Support the weight of the silencer, then remove the mounting bolt.

C) Carefully remove the original silencer and the gasket. You don't need to use a gasket when fitting the Scorpion Exhaust.

D) Slide the flute into the connecting pipe. This is required to help prevent the engine management light coming on, but there is no guarantee it will remain off.

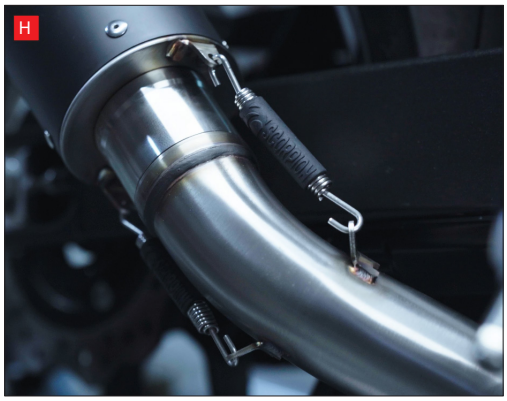

E) Place the clamp over the end of the Scorpion connecting pipe, then slide on to the original exhaust.

F) Slide the Scorpion silencer on to the connecting pipe and roughly align the mounting bracket.

G) Loosely secure in place with the supplied mounting hardware. You will fully tighten in a later step.

H) Attach the springs between the spring hoops on the silencer and connecting pipe.

Bike	Honda NX500 Euro 5+	Part No.	RHA-209

Notes	Where not supplied use original fittings. Remove Gasket's if fitted. Engine management light may come on.	dB Killer	SCEXDBK23 - (Type V)

I) Fully tighten the exhaust clamp.

J) Fully tighten the silencer mounting bolt.

When fitted take bike for a short ride to ensure all functions are correct. When bike & exhaust are cool enough check all nuts and bolts are still secure.
